The 14th Annual International Meeting, "Breastfeeding: Lessons from History, Implications for Tomorrow" presented by the Academy of Breastfeeding Medicine (ABM), will include world-class speakers providing cutting-edge research and clinical information on current issues in breastfeeding medicine. Our speakers are among leaders of research and clinical medicine in the world of breastfeeding and human lactation.

The ABM Annual International Meeting focuses on the most authoritative and up-to-date clinical information on breastfeeding, spanning both maternal and child health issues. A significant educational opportunity, the 2009 Meeting is an ideal context for physicians to continue their professional education in a highly respected stimulating environment, while earning continuing medical education credits. This year's Meeting will once again offer the one-day Pre-conference Course, "What Every Physician Needs to Know About Breastfeeding."

Participating physicians will have the opportunity to meet and share knowledge and experiences with other participants and speakers from around the world, in addition to attending ABM committee meetings, poster and platform abstract presentations, a banquet, and other special events. **This year's Meeting will feature the Fourth Annual Founders' Lecture by Marshall Klaus, MD, renowned pediatrician and neonatologist.** Dr. Klaus is the author of several books, including *Your Amazing Newborn*, and *Bonding: Building the Foundations of a Secure Attachment and Independence*. Dr. Klaus' research on bonding, "rooming in," and the doula's role in emotional and physical support in reducing the complications of labor, have impacted childbirth practices around the world.

In addition to the physician meeting, a health team meeting for non-physician health professionals will be offered featuring dynamic, influential experts in the field of breastfeeding medicine.

The 2009 Meeting will be held in Colonial Williamsburg, a living, working 18th Century city, packed with historic and architectural treasures.

**CAN'T COME?
CONTRIBUTE INSTEAD!**

Though you may not be able to attend our Meeting this year, we hope that you will still support our mission by making a donation to ABM. As a thank you, we will recognize your generosity in the final meeting program and in our official peer-reviewed journal *Breastfeeding Medicine*. For more information about donating to ABM, visit our website (www.bfmed.org)

***Friends of the Academy* - discount**

A special conference discount is available to healthcare professionals who make a philanthropic contribution to the *Friends of the Academy* in support of our mission. With a minimum contribution of \$150, you will receive a discount at this year's ABM Meeting and a one year subscription to ABM's peer-reviewed journal *Breastfeeding Medicine*. Donors will be recognized in the final meeting program, and in the Journal.

Maurice Rosefelt Scholarship Fund

Please consider making a contribution to the **Maurice Rosefelt Scholarship Fund**. It was established to encourage participation of members in the presentation of scholarly work to the ABM Annual Meeting who otherwise would be unable to afford such participation. Preference is given to those demonstrating leadership and research potential in breastfeeding. Special attention will be given to residents, students, and members outside the United States.

SPECIAL EVENTS AND COMMITTEE MEETINGS

November 5-8, 2009 • Williamsburg, Virginia

THURSDAY, NOVEMBER 5

8:00 am – 5:00 pm

Pre-conference Course: “What Every Physician Needs to Know About Breastfeeding”

(Open to physicians and healthcare professionals.
Registration fee: \$120)

8:00am – 12:00pm

Train-the-Trainer Workshop (Registration required, fee: \$50)

A major need in the successful promotion of breastfeeding is pre-service training, and the education of medical students even before they select their postgraduate training field. Participants in this interactive workshop will be able to effectively guide medical students beginning their clinical assignments in the use of a self-study approach to the basic concepts of lactation management and breastfeeding promotion. The workshop will review a tool specifically designed for this approach, and discuss a variety of ways to enhance the material. Participation will be limited to 20 registrants who have already completed the “What Every Physician Needs to Know About Breastfeeding” Course given regularly at the *ABM* Annual Meeting, and who are currently engaged in teaching medical students.

12:00 pm – 3:00 pm

Fellows’ Crosstalk

All *ABM* Fellows are invited to attend this session designed to stimulate discussion about advanced topics in breastfeeding medicine. This will include discussions of public health topics, ethical considerations, significant case studies, and useful formats to consider, such as seminars and journal clubs.
(Attendance limited to *ABM* Fellows.)

3:00 pm – 5:00 pm

Widespread Praise for ABM's Annual International Meeting

"[The 2008 Founders' Lecture was given by the] best gastroenterologist in the world and his comments and studies with respect to breastfeeding-microbiota and immunity are very important for everybody. I hope to see all of you!"

Concepción de Alba Romero, MD, PhD
*Hospital 12 Octubre – Neonatology
Madrid, Spain*

"A wondrous gathering for 21st century Alchemists, who together, have the power and process to transform something common into something golden."

Verity Livingstone, MD, MBBS, FAMB
*University of British Columbia
Vancouver, Canada*

"The Annual Meeting is a great opportunity to network with other physicians who hold a passion to support breastfeeding through education and research."

Edward R. Newton, MD, FAMB
*Department of Obstetrics and Gynecology
Brody School of Medicine
East Carolina University
Greenville, NC*

"The ABM meeting is truly the very best networking opportunity with top physicians dedicated to breastfeeding medicine from all around the world."

Kinga A. Szucs, MD
*Indiana University School of Medicine
Family Beginnings
Wishard Health Services
Indianapolis, IN*

"I have always thoroughly enjoyed every ABM meeting for the education, networking, and generation of new ideas. The Annual International ABM Meeting is a 'must attend' for anyone interested in breastfeeding medicine in promotional efforts, direct clinical work, research, and/or in teaching colleagues and doctors-in-training."

Amy E. Evans, MD, FAMB
*Center for Breastfeeding Medicine at CRMC
Fresno, CA*

"When you attend the ABM Annual Conference, you have the opportunity to hear and interact with many of the 'big names' in breastfeeding medicine—it is an energizing experience!"

Nancy G. Powers, MD, FAMB
*ABM Treasurer
Janice M. Riordan Distinguished
Professor in Maternal Child Health
Wichita State University
and Clinical Associate Professor of
Pediatrics and OB-GYN
University of Kansas School of Medicine
Wichita, KS*

"The lecturers were fantastic, and I learned so much. I wish that some of the lecturers were able to talk all day about the subject matter. It was so fascinating to listen to them and learn from their years of experience. There were so many states and countries represented. I made great networking connections within my state that have been invaluable. I would highly recommend the conference to anyone that has anything to do with women, infants, and/or children in any capacity."

Meredith Buell

This Peer-Reviewed Medical Journal will Enable Physicians to Better Understand all the Complexities and Benefits of Breastfeeding

This academic, peer-reviewed journal created by physicians, dedicated to the advancement of breastfeeding worldwide, provides a scientific forum on breastfeeding and human lactation. With the growing demand for the best evidence-based research advances, this interdisciplinary journal explores the immediate and long-term outcomes of breastfeeding. The Journal focuses on all medical aspects pertaining to breastfeeding and addresses the wide spectrum of research and clinical applications that impact upon the optimal care of mother and infant.

Breastfeeding Medicine publishes original scientific papers, reviews, and case studies on a wide spectrum of topics.
